“

We used RTO Consulting to develop two accredited courses. This is not something we could have done without Angela McGregor. Angela is extremely knowledgeable and easy to work with. She delivered her services to us with minimal fuss and extracted the information she needed in an efficient manner. At all times Angela gave us the confidence that the desired outcome would be achieved when others had told us it was impossible. We have no hesitation in recommending RTO Consulting to anyone who is embarking on the development of an accredited course.

Auditing Services

RTO Consulting provide face to face or desk audit services for clients preparing for reregistration, a regulatory audit, sale of the RTO, due diligence when looking to purchase and as part of a commitment to self-assurance.

“

After the initial phone call there was no doubt we had made the right call. Her authority, calmness and ability to explain and reassure us was a breath of relief.

She did not over-complicate, but instead just informed us of the aspects she needed from us while taking care of everything else. It was only two weeks after her amended submission that we gratefully received approval. I would recommend RTO Consulting to anyone who is overwhelmed with the process and needs a careful translator and a 'master of trade'.
