readytech

The AI governance questions ASQA now expects every VET provider to answer

AI adoption is accelerating across VET, but governance isn't always keeping pace.

ASQA's new Principles for the Responsible Use of AI in VET reinforce the questions every provider should be asking.

KEY TAKEAWAYS

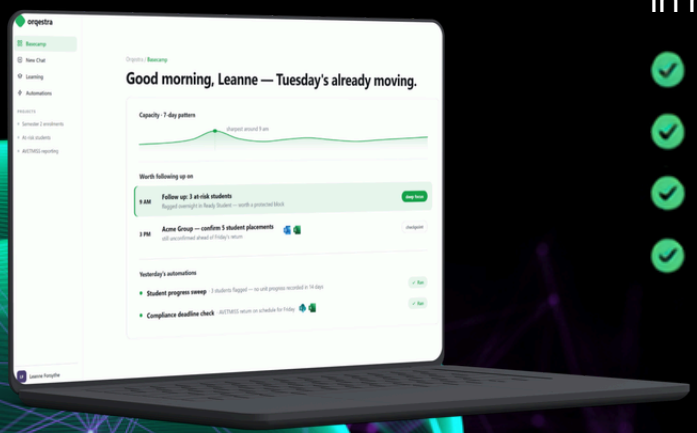

95%
of education organisations are exploring or using AI.

34%
have a documented AI use policy.

30%
have a responsible AI framework.

Orqestra

AI built for VET

Governance by design

Orqestra connects intelligence across your systems to deliver trusted, auditable answers in minutes, not days.

- Built-in governance and human oversight
- Data sovereignty and security by design
- ISO/IEC 42001 and ISO/IEC 27001 certified
- Visibility and control with a central AI command centre
