

An LMS designed for RTOs of all sizes

A full suite of features that are easy to use and specifically designed for RTOs.

STUDENTS

01

An engaging online learning experience.

A user friendly student learning platform, easy to use, easy to learn.

-  Students can navigate their course material and assessments effortlessly through an intuitive interface.
-  The Nimbu LMS interface is fully responsive, enabling students to access training anywhere, anytime.
-  Your brand, your LMS, student familiarity customised UI, with tailored backgrounds and branding.
-  Students receive trainer feedback directly within the platform, guiding them with actionable insights.
-  Michi provides students with AI-driven flashcards, quizzes, and summaries that enhance understanding & boost retention.

TRAINERS & ASSESSORS

02

Students, classes, training & assessing all in one platform.

An efficient trainer dashboard, giving you more time for your students.

-  Create and manage classes effortlessly with unlimited configurations and customisable unit setups.
-  Build versatile assessments with self-marking, evidence uploads, and short-answer options.
-  Use self-marking assessments with limited attempts to automatically prompt additional evidence for thorough evaluation.
-  A dynamic Practical Observation tool giving a broad range of observation settings and configurations.
-  Mark assessments online, provide feedback, and request resubmissions—all with a detailed history log.
-  Real time student engagement reporting, before it is too late.

INSTRUCTIONAL DESIGNERS

03

A diverse and intuitive platform to design in.

Versatile content creation options and efficient course setup and management.

-  Create engaging learning materials, including PDFs, videos, SCORM files, and HTML articles.
-  Enable project-based evaluations with question uploads, supporting diverse assessment formats.
-  Blend accredited and non-accredited materials seamlessly within your courses and assessments.
-  Embed external content such as YouTube videos, Canva designs, Soundcloud podcasts, or Vimeo links seamlessly.
-  Develop checkpoint quizzes and self-marking progress assessments to enhance the learning journey.
-  Use the clustering tool to easily group units and streamline complex training requirements.
-  Generate pre-training materials, study guides, or supplemental resources to support learning.

PARALLEL ONBOARDING

3 months free onboarding

We take on a small number of RTOs at a time, so every team gets the support it needs.

ONBOARDING

3 MONTHS ONBOARDING PROGRAM

Our team will configure your account and import and publish all your learning material. All you need to do is train your students. We will provide you with all the training and support you need to deliver your training using Nimbu parallel to your current system.

NIMBU DOES

YOU DO

1 MONTH 1 • ACCOUNT CREATION

- ✓ We configure your account, users, permissions and settings
- ✓ We import or publish all your training & assessing material
- ✓ We configure your courses and classes so they are ready to add students and train
- ✓ We train your team so they are ready to start delivery
- ✓ Option to enhance your learning experience with Evokio

2 MONTH 2 • SUPPORTED TRAINING

- ✓ We will continue to train and provide support to your team as they deliver the training
- ✓ Available for feedback and refinement as your students and trainers start to use the platform

3 MONTH 3 • REAL TIME COMPARISON

- ✓ Weekly check-ins
- ✓ Available for support, training and ongoing refinement

We migrate or publish your learning material for you and get you ready to train.

We do the heavy lifting for you.

- Initial onboarding analysis and plan with a dedicated customer success expert
- Provide us with your learning material
- Participate in training as needed
- Review and provide feedback along the way

Time to train. Deliver your training in parallel.

- Start your training alongside your existing platform
- Provide feedback as needed
- Participate in platform training as requested by you

Results speak for themselves.

Make an informed decision without the risk.

- Self sufficient training
- Continued team training as needed
- Real time comparison with real end user experiences

END OF ONBOARDING

**Real results, real comparison,
an easy decision.**

Let your students and team decide. With little effort and no cost, run Nimbu in parallel and see if it suits your RTO.

WHAT YOU GET

- ✓ Obligation free
- ✓ Seamless transition
- ✓ Training and support for your team
- ✓ Train parallel to your current platform
- ✓ We do the configuration and heavy lifting for you
